Agreement Reimbursement Tracking Standing Operating Procedure

1. References:

- a. United States Army Pacific (USARPAC) Regulation 5-1, Defense Regional Interservice Support, dated 8 June 2001.
- b. United States Army Alaska (USARAK) Pamphlet 25-50, Information Management Correspondence/Administrative Guide, dated 1 December 2000.
- c. Army Regulation (AR) 25-50, Preparing and Managing Correspondence, dated 5 April 2001.
- 2. Purpose: To develop a system to track reimbursements for Interservice Support Agreements (ISAs) and Memorandum of Agreements (MOAs) to help ensure the United States Army Alaska (USARAK) is reimbursed for services provided in support of other activities.
- 3. Scope: The tracking of all reimbursements for active ISAs and MOAs, where USARAK provides support to other activities.
- 4. Applicability: This Standing Operating Procedure (SOP) applies to all personnel within USARAK, responsible for handling reimbursements and responsible for working with support agreements (Budget Analysts, ISA Coordinators, and Support Agreement Analysts).

5. Responsibilities:

a. Budget Analysts:

- (1) Include the ISA or MOA number into the body of the document prior to accepting and/or processing Military Interdepartmental Purchase Requests [(MIPRs) see Enclosures 1 and 2]. For a MIPR acceptance that has multiple services, break the cost out by service and APC (see Enclosure 2). Complete the billing document and send a copy to the DRM Program Budget Division (PBD) Budget Analyst responsible for tracking reimbursements.
- (2) Include the ISA/MOA agreement number into the Account Processing Code (APC) description for reimbursements based upon ISAs and MOAs. The APC is a locally developed four-position alphanumeric code that abbreviates the accounting classification, and relates to the Army Management Structure (AMS) code and to other codes used in processing financial transactions. The first position identifies the Program Director and the second position identifies the post; Budget Analysts assign the remaining two positions. To include the information needed to tie a reimbursement to an ISA or MOA, the APC description should include ISA### or MOA### into the description. An example of an APC description for an APC that belongs to the Directorate of Public Works (DPW) follows:

APCFABD: ISA306 Refuse Collection - Navy

SUBJECT: Agreement Reimbursement Tracking Standing Operating Procedure

The description given in the example associates the APC with an ISA between USARAK and the Naval Sea Systems Command for a warehouse storage and base support agreement. Including this information into an APC description enables the PBD Budget Analyst to run a query using the APC description, and track a reimbursement associated with an agreement (see Enclosure 3)

- (3) Use the DRIS Office website to determine which ISA/MOA is tied to a reimbursement based upon an agreement. The website address is: https://drm.ak.pac.army.mil/dris/dris/index.htm. The website is continuously updated as agreements are created, revised, or terminated. The DRIS Office pays particular attention to this during the DRIS Quarterly Inspections (January, April, July and October). You will find agreements organized by series, such as 100 for Army to Army,-200 for Army to Air Force, 300 for Army to Navy, etc. Memorandums of Understanding (MOU) and MOAs are consolidated.
- b. Directorate/Activity ISA Coordinators: Ensure when an agreement is staffed, that budget personnel include the appropriate information as outlined above.
- ${f c}$. DRIS Office Support Agreement Analysts: Ensure once an APC is given that is associated with an agreement that it corresponds to the correct agreement.
- 6. Direct questions and recommendations regarding this SOP to the Directorate of Resource Management.
